

# Open Science Poster Series

## 1. Open Science 101

### What is Open Science?

**Open Science** refers to the unrestricted and free access to and exchange of scientific knowledge and data. The action areas within Open Science include, among others, access to research data (**Open Data**) and scientific publications (**Open Access**). The Open Science movement recognizes the possibilities of digitalization as an opportunity to make science more transparent, accessible, and collaborative.

### The Areas of Open Science

Area	Access to ...	Examples
Open Access	scientific publications	papers, books
Open Data	data from scientific studies	measurements, non-personal data
Open Materials	materials used in scientific studies	questionnaires, pictures
Open Source	source code of programs	Open Office, Unity
Open Educational Resources	resources used for educational purposes	worksheets
