

Open Science Poster Series

5. Access granted – Benefits unlocked

What does Open Access offer you?

Open Access provides free and unrestricted access to scientific information worldwide. But Open Access also offers direct benefits to you as an author. Here are some key advantages of Open Access publishing.

Increased visibility

Free access to your research makes it easier to find and more likely to be cited.

Higher transparency

The open sharing of research data and results allows colleagues and other interested parties insights into your work and methods. This transparency builds trust in your research and in you as a scientist.

Facilitated international collaboration

Publishing Open Access, makes it easier and faster to connect with researchers around the world.

Fulfilling requirements of funding measures and EU projects

More and more funding organizations are requiring Open Access publication as a condition of support.

Working for a fairer world

By publishing your work Open Access, you help ensure that researchers in lower-income countries can access essential scientific information.
